Checklist for 2002 Nationwide Permit Review
Nationwide Permit 13

Bank Stabilization
(10/404)

SAC#: _____

Applicant Name: _____

Waterway/Location: _____

Project Name: _____

1. Is the activity for bank stabilization which is necessary to prevent erosion?

☐ Yes ☐ No

2. Will the activity cause any of the following to occur? The placement of material is more than the minimum needed for erosion protection. The material will be placed in a special aquatic site (special aquatic sites include wetlands). The material will be placed in a manner or a location which will impair surface water flow into or out of any wetland. The material will be placed in a manner that will be eroded by normal or expected high flows.

☐ Yes ☐ No

3. Is the proposed bank stabilization activity greater than 500 linear feet and/or will the activity exceed 1 cubic yard per running foot below the plane of ordinary high water or the high tide line?

☐ Yes* ☐ No

4. Does this activity include the channelization of any waters of the U.S.?

☐ Yes ☐ No

5. Are all of the applicable NWP General Conditions satisfied, including mitigation (GC #19), endangered species, and cultural resources, and if any Federally listed species and/or designated critical habitat occurs in the action area, have you made an effect determination and properly documented it in the administrative record?

☐ Yes ☐ No

6. Is the activity located adjacent to an authorized federal navigation project? These federal navigation areas include Adams Creek, Savannah River, Jeremy and Town Creek at McClellanville, Village Creek at Beaufort, the Charleston Harbor Navigation Project (to include the Federal navigation channels in Shipyard River, Wando River, Town Creek, and channels at the naval weapons station), Georgetown harbor, Little River Inlet, Murrells Inlet, Main Creek at Murrells Inlet, Port Royal Harbor, Waccamaw River, Shem Creek, and the Atlantic Intracoastal Waterway.

☐ Yes* ☐ No

7. Will the activity impact greater than 300 linear feet of perennial or intermittent streams?

☐ Yes* ☐ No

8. Will the activity channelize streams or cause more than minimal changes to the hydraulic flow characteristics of the stream, increase flooding, or cause more than minimal degradation of water quality to streams?

☐ Yes ☐ No

TO QUALIFY FOR THE NWP, UNLESS OTHERWISE NOTED, EVERY NUMBERED ITEM MUST HAVE A CHECKED BOX.

* - REQUIRES A PRE-CONSTRUCTION NOTIFICATION (PCN) TO THE DISTRICT ENGINEER.
